7 January 1964

MEMORANDUM FOR THE RECORD

SUBJECT: Call to Admiral Taylor

REFERENCE: Memo for Record, 3 January 1964
re Meeting with Admiral Taylor

On 7 January 1964, I called Admiral Taylor re his proposal to have APL undertake a thorough examination of all material concerned, including the Navy data. You will recall that this examination was to take place on APL premises and not at NSA. Admiral Taylor was informed that his proposal had been discussed here, was considered very thorough, and met with general approval. I asked him whether the original, non-edited reports would be available for review. He stated that completely unbiased reports would be available for review by the Intelligence Community and the Hyland Panel. I indicated our satisfaction with this arrangement.
